ONLINE SELF-ASSESSMENTS

BCSP SELF-ASSESSMENTS

BCSP Board of Certified Safety Professionals — Since 1969 —
The online self-assessments developed by the Board of Certified Safety Professionals (BCSP) assist candidates in evaluating their level of knowledge in examination blueprint areas. Each BCSP certification — the CSP, SMS, ASP, OHST, CHST, STS, STSC and CET — has its own online assessment.

EVALUATE YOUR STRENGTHS & WEAKNESSES

CONTENT INCLUDES:

- Self-Assessment Questions
- References and Calculations
- Examination Blueprint
- Blueprint References
- Assessment Results
- Historical Results Tracking
WHY USE SELF-ASSESSMENTS?

Both the examinations’ and online self-assessments’ questions are designed based on the percentages indicated for each “Domain” in the examinations’ blueprints.

Candidates can utilize the online self-assessment to evaluate their strengths and weaknesses, strategize test-taking pace, and plan future studying accordingly.

No question in the online self-assessment will appear on the actual examination. The online self-assessment is not intended to be an exam training or preparatory document.

ADDITIONAL RESOURCES

BCSP lists examination blueprints, including examination review and preparation service providers at bcsp.org/Resources/Review-and-Study-Sources. BCSP neither evaluates nor endorses providers’ materials, and does not provide training itself.

To understand the certification process thoroughly, please download the Complete Guide available on each certification’s webpage (i.e., the Complete Guide to the CSP at bcsp.org/CSP).

ORDER ONLINE

Visit bcsp.org, click on “My Profile,” and select “Purchase Self-Assessment” once logged in. Your ordered self-assessment(s) will then be available in the “Self-Assessments” section of your profile’s main menu.
